Category: CWQAP

Reference Code: TEC 455

Mechanical Course

Course Overview

This short training course provides systematic refresher training in order to pass the “Contractor Workforce Assessment Test” as provided in the AITC premises. In close relation to the test requirements, the course deals with the essential background on knowledge of mechanics being identified on “must know-level”. This short training course cannot provide foundations.

Who Should Attend?

This short training course is addressed to experienced “mechanics” who intend to participate in the “Contractor Workforce Assessment Test” or are in need of a refresher course before participating in the respective test. The course is not suitable to qualify newcomers and inexperienced persons in the mechanical discipline due to the limited time and the more theoretical nature of the contents. Participants should possess the required technical knowledge already.

Enabling Objectives:

The training provides a very quick review on a number of technical subjects, which could be part of the Contractor Assessment test.

- Health and safety at the workplace
- Identification of hazards and precaution measures
- Lockout-Tagout procedures
- Machine Shop terminology
- Identify Valve symbols and terminology
- Pump principles
- Principles of Valve operation
- Operating principles of Compressors
- Maintenance of Bearings
- Lubrication principles

Kingdom of Saudi Arabia
