

Course Name: VTS Operator Basic Training 103/1 Standard-IALA

VTS Operator Basic Training 103 /1 is intended for those interested in working as operators for Vessel Traffic Service (VTS) in ports. The course is generic, held in a classroom with simulator support.

The license for performing the duties of a VTS Operator will only be provided upon completion of the On the Job Training. This will be linked to the port which the On the Job Training is performed. To perform the function of VTS Operator in another port the completion of a new On the Job Training is required.

Code: MAR 800

Course Objective:

At the completion of the course the student should have acquired the skill levels required, in accordance with the requirements established in IALA V103/1, to perform the duties of Vessel Traffic Service Operator (VTSO).

Program Methodology:

Lecturing, brainstorming, group discussion, presentation

Who Should attend?

Officers that want to work port side with the management of vessel traffic and control. Non-seafarers will be required to take a course with general nautical notions and GMDSS before enrolling.

Pre-Course Requirement:

It would be an advantage for delegates to have some knowledge or prior study of oil spill response issues and techniques.
